

# INTERNSHIPS

## SPRING/SUMMER & SUMMER/FALL *Internships in Central Ohio*

Learn how a well designed landscape, the use of proper installation techniques, and good horticultural/maintenance practices, can lead to a healthier, enriched landscape.

### **Landscape Installation:**

*All aspects of new installation projects.*

- Assist in landscape bed layout & site analysis.
- Use proper bed preparation techniques.
- Assist in nursery plant material selection & layout of plants according to design.
- Be involved in planting, staking, fertilizing, mulching & watering.

### **Weekly Site Maintenance:**

- Work with experienced on-site maintenance crew.
- Visit commercial & residential maintenance sites on a weekly basis.
- Learn fundamental maintenance practices for mowing, edging, & weed control.
- Learn how to use different pieces of equipment & various pesticides & herbicides.

### **Design Sales:**

- Work with Registered Landscape Architect.
- Learn to do site take offs & analysis, to put together a Landscape Plan.
- Attend meetings with potential & existing clients. Hopefully seeing a project from start to finish.
- Learn different design techniques; hand drawings, AutoCAD & Photoshop as a few examples.
- Learn the importance of proper design & installation to make the maintenance process much simpler.

### **Seasonal Color:**

*Month of May*

- Learn to layout & install annual flower beds.
- Learn the importance of soil amending, fertilizing & watering.
- Learn basic concepts in custom container designs.

### **Pruning:**

*Summer work*

- Work with Horticulturist.
- Learn proper pruning techniques for different plant species.
- Work with both deciduous & evergreen materials (Plant Identification).
- Maintain perennials, use proper dead heading & plant clean up techniques.
